Articles not marked by any sign were published as original contributions in the Laryngoscope. All articles marked with a † were published in the proceedings of the New York Academy of Medicine, Section on Laryngology and Rhinology. Those marked with a * were published in the proceedings of the Philadelphia Laryngological Society; those marked with a ‡ were published in the proceedings of the American Laryngological Association.

A

- Abscess of lung following operation on tonsils and upper air tract,—Richardson, C. W. ‡124
Abscess of lung following inhalation of foreign body,—Forbes, H. H. †197
Abscess, peritonsillar, simplification of the surgical treatment of,—Cates, T. H. 764
Adenocarcinoma of the nose,—Hurd, L. M. 757
Adenoids in adults,—Lewis, F. A. 493
Address, presidential, before the American Laryngological Association,—Halsted, T. H. 769
Anaphylaxis due to pollen protein, with a report of the results of treatment in the hay fever clinic of the New Orleans Charity Hospital,—Scheppegrell, W. 853
Angina, cervical gangrene complicating Ludwig's,—Voorhees, I. W. 177
Angina, Vincent's trichloroacetic acid a specific in,—Gallaher, T. J. 551
Angina, Vincent's, some interesting cases of,—Theisen, C. F. †899
Angioma of the larynx, intubation for, in a child ten weeks old,—Levbarg, J. J. 867
Aphasia,—Scripture, May K. 408
Asthma, consideration of, from a wider aspect,—Pollock, H. L. 543
Asthma, pathogenesis of bronchial—Freudenthal, W. 781
- ## B
- Barany tests, method of analysis of the, in pathologic cases,—Fisher, L. 724
Bleeding from respiratory tract below the epiglottis, apparently non-tubercular,—Stout, G. C. *129
Bronchial tube, carpet tack in right, for two years with no pathologic symptoms,—Roy, D. ‡903

- Bronchus, copper brad in left inferior,—McKinney, R. 89
Bronchus, foreign body removed from the,—Yankauer, S. †433

C

- Cyst of jaw; external operation, Carrel-Dakin treatment,—Chambers, T. R. †889
Cyst (implantation) of larynx,—Dean, L. W., and Gregg, J. B. 74
Cyst of nasopharynx,—Knight, F. H. †429
Cyst of thyroglossal duct; two cases,—Freer, O. T. ‡908

D

- Deaf, medical profession and the,—Morgenstern, L. 612
Deafness, progressive, from chronic secretory otitis media; changing methods in treatment of,—Emerson, F. P. †61
Defective speech and some of its phases,—Ersner, M. S. 416
Diphtheria, municipal control of,—Schaeffer, C. W. 861

E

- Ear protectors,—Richardson, C. W. 514
Endolaryngeal removal of malignant growth; no recurrence at end of over 18 months,—Smith H. †199
Epiglottis, two cases of syphilis of and one of tuberculous granu-
loma, illustrating the difficulty of diagnosis in throat lesions,—
Smith, H. 175
Epistaxis occurring in a hemophilic,—Harris, T. J. †890
Epithelioma, primary, of pharynx and left tonsil,—Weintz, C. H. 190
Esophageal diverticulum, two cases of,—Arrowsmith. †433
Esophagosopic forceps,—Jackson, C. 49

L32

- Esophagus, coexistent carcinoma, tuberculosis and probably syphilis of,—Dean, L. W., and Gregg, J. B. 454
- Esophagus, button in the,—Kernan, J. D. 434
- Esophagus, epithelioma of,—Mayer, E. 477
- Ethmoid and frontal sinus, empyema of left, with perforation of inner wall of orbit,—Roberts, E. R., and Harris T. J. 93
- Ethmoiditis, frontal sinusitis, diplopia,—Harris, T. J. 487
- Ethmoid and roof of antrum, embryonic carcinoma of,—MacKenzie, J. A. 491
- F**
- Fibromyxoma, nasopharyngeal, undergoing scaromatous changes,—Goldbach, L. J. 106
- Frontal sinusitis, vertex headache preceding and following an operation for,—Harris, T. J. 487
- Frontal sinus, large osteoma involving the, and uncovering the adjacent brain,—Barnhill, J. F. 909
- H**
- Hypophysis, observations on the decompression operation on the, by the nasal route,—Stein, O. J. 376
- Hypophysis cerebri and its morphological influence,—Lewis, F. P. 604
- I**
- Instrument for making drainage incision on floor of nose, obviating use of packing following resection of septum,—Gatewood, L. 111
- Intubation tube removed from right lung after two years,—Arrowsmith, H. 432
- L**
- Labyrinth, an attempt at simplification of the physiology of the vestibular,—Jones, I. H. 472
- Labyrinth, primary disease of, as a result of focal infection,—Shambaugh, G. E. 462
- Labyrinthine function, some points of interest in tests of,—Graef, C. 811
- Larynx, intubation for angioma of, in a child ten weeks old,—Levbarg, J. J. 867
- Larynx, cartilaginous tumors of the,—New, G. B. 367
- Larynx, hemilaryngectomy for carcinoma of the,—McCoy, J. 428
- Larynx, implantation cyst of,—Dean, L. W., and Gregg, J. B. 74
- Larynx, lymphangioma of the,—Richardson, C. W. 8
- Larynx, treatment of malignant disease of; management and statistics of malignant disease of upper respiratory tract,—Beck, J. C. 131
- Larynx and upper end of esophagus, examination of, with head straight,—Johnston, R. H. 127
- Laryngeal syphilis, intravenous injections of sodium iodide in massive doses in obstinate,—Howard, R. C. 487
- Laryngitis, tuberculous, mistaken for carcinoma,—Freudenthal, W. 205
- Laryngectomy for epithelioma,—Arrowsmith, H. 489
- Laryngectomy for carcinoma,—McCoy, J. 485
- Laryngectomy, a recent,—Arrowsmith, H. 619
- Laryngectomy, result of a,—Hurd, L. M. 202
- Laryngectomy with excision of first portion of esophagus,—McCoy, J. 431
- Laryngectomy, end results after,—Delavan, D. B. 424
- Lateral sinus thrombosis; three cases,—Ballou, D. H. 465
- M**
- Macroglossia lymphangioma with report of a case,—Sleight, R. D., and Haughey, W. 99
- Malingering, new ear test for,—Teal, F. F. 615
- Malingering in defective hearing, tests for,—Kerrison, P. D. 662
- Manikin, description of, for practice and demonstration of special instrumentation in bronchoscopy and esophagoscopy. 851
- Mastoid operation, radical; indications, technique and results,—Smith, J. M. 584
- Mastoid operation; its relation to modern healing of mastoid wounds,—Blackwell, H. B. 116
- Mastoid operation, the answer to opponents of the radical,—Bowers, W. C. 790
- Mastoid operation, the modern,—Kyle, J. J. 805
- Mastoid, surgical pathology of the,—Beck, J. C. 113

- Mastoiditis complicated by paratyphoid fever with metastatic abscesses,—MacPherson, D. †119
- Maxillary sinus, technique for perineural anesthesia for radical surgery of the,—Gatewood, L. 616
- Maxillary antrum, pathological processes involving the, with reference to silver nitrate treatment,—Abraham, J. A. †51
- Maxillary antrum, Skilleen's operation for empyema of the,—Harris, T. J. †425
- Meningitis, case of, treated by labyrinthectomy and decompression,—Perkins, C. E. 695
- Meningitis, otitic,—Dench, E. B. 501
- Middle ear suppuration, chronic, treated by the Carrel-Dakin method following a radical operation,—Kerrison, P. D. 537
- N**
- Nares, operation for bony occlusion of the posterior,—White, L. E. 571
- Nasal cases probably due to syphilis; remarks on obscure syphilitic nasal symptoms,—Roy, D. †119
- Nasal (sphenopalatine) ganglion cases, three unusual,—Suder, G. ‡
- Nasopharyngeal polypus originating in maxillary sinus,—Baum, H. L. 180
- Needle for suturing submucous flaps,—Fischer, V. B. 109
- Nose, diseases and deformities of, versus neuralgia of the head,—Stauffer, F. 698
- Nose, plastic operation on the,—Hurd, L. M. †625
- Nose and accessory sinuses, report of some cases, mostly traumatic, of serious damage to, operated externally with excellent cosmetic results,—Winslow, J. R. 679
- Nose and throat, conservation in radical surgery of the,—Wright, J. W. 705
- O**
- Ocular circulation as affected by diseases of nasal accessory sinuses,—Coffin, L. A. †58
- Osteosclerosis of the temporal bone in chronic suppuration,—Graham, H. B. 872
- Otitis media, conditions developing in chronic suppurative, which should constitute the basis for exemption from military service,—Dench, E. B. 717
- Otology, new usefulness of,—Lewis, E. R. †114
- Ozena, atrophic rhinitis and,—Coffin, L. A. †903
- Ozena, vaccine treatment of,—Glogau, O. 380
- Ozena, end results in treatment of, by means of vaccines,—Horn, H. †122
- Ozena secondary to chronic sinusitis,—Faulkner, E. R. †893
- P**
- Palate, sarcoma of, improved by Roentgen rays,—Stout, G. C. †129
- Palate, specific perforation of the,—Harris, T. J. †207
- Pansinusitis on one side with tic douloureux on the other; no operation; necropsy; unusual findings,—Culbert, W. L., and Dwyer, J. G. 486
- Peroral removal of tack from lung of child,—Forbes, H. H. †196
- Plastic surgery of the face, primary principles of technique of,—Frank, I. 565
- Polypi, nasal and aural,—Gluck, C. 186
- R**
- Rhinitis, periodic attacks of vasomotor, followed by asthma and symptoms of paranoia, recurring over a period of ten years,—Davies, J. R., Jr. 475
- S**
- Sarcoma of orbit removed through Killian incision,—Coffin, L. A. †881
- Septal operations, cause of non-success in,—Vattier, L. C. 193
- Septum, submucous resection of the nasal,—Shook, F. M. 750
- Sinus diseases, negative pressure as a therapeutic measure in the treatment of,—Coffin, L. A. †882
- Sinuses, accessory, of the nose; bacteriological and clinical aspects of infection of,—Babcock, J. W. 527
- Sinuses, treatment of suppuration of nasal accessory,—Gleason, E. B. 1
- Snare, improved,—Harwood, C. B. 50
- Speech defects, diagnosis of,—Scripture, May K. 78
- Speech defects, etiology of,—Scripture, May K. 12
- Speech defects, phonetics in relation to,—Scripture, May K. 735

- Speech defects, therapy of,—Scripture, May K. 817
- Speech instructor, training of the,—Swift, W. B. 869
- Spoon, mechanical, for esophagoscopic use,—Jackson, C. 47
- Stammering, the problem of, and its solution,—Kenyon, E. L. 666
- Status lymphaticus; death following tonsillectomy; autopsy,—Carter, W. W. †422
